

158' - 600 Passenger Luxury Motor Yacht

The largest and most recent addition to our fleet of yachts, She presents the most elegant and imposing yacht profile on the bay. At 158 feet in length, she is the perfect venue for any occasion that requires space for hosting large numbers of guests in a welcoming setting. Popular for large events and special celebrations, this expansive vessel accommodates up to 600 guests and seats up to 300 diners.

With elegant mahogany and cherry wood interiors and a state-of-the-art multimedia system, our ship is not only the newest, but also the most updated of all our vessels. Each deck level can host a different dance floor and DJ or live band, while providing quiet, impeccably furnished nooks for more personal conversations.

This gorgeous ship has two enclosed decks, two full-service cocktail bars and an enormous upper platform which can be tented or enclosed as you wish. From each of these levels, the yacht offers 360-degree views of the San Diego skyline and Bay Bridge, Coronado, and as far south as Mexico. The two lower levels provide both climate-controlled and open-air decks, eliminating the need to climb any steps to come in or out of the fresh air.
